From the District Deputy

My Brethren;

A challenge to all of us in life is to accomplish what we like and love; our trip to and during our years as a mason, is what we were hoping to find, to keep, to love and to respect. We are in a special school whether we like it or not. There is great difference these years from what senior masons did many years ago, as life move faster and faster with new technologies, to traveling around the world in summer and winter for your personal interest.

As masons I believe we are losing a great number of younger good men, for those games and activities, which you don't have to leave your family for to enjoy.

The investigation committee plays a major role when a new person hopes to become a mason. When you visit to discuss with him and ask the questions his wife should be in attendance. You must put everything on the table, regarding time, memory work, participation and community events.

The amount of memory work should be clearly explained so that he is not surprised when he gets to it.

Also the committee should indicate the number of meetings to attend and if he wishes to proceed through to become a master, the number of years and the commitments that are necessary.

The activities in which the lodge members participate together create friendships and harmony among each other with and without their family. Lodge members are encouraged to participate in all Community/Lodge events.

Prospective members should be told that the way you perceive a specific situation is determined by your frame of mind. If your mind and thoughts are positive, you will always be in a position to seize the opportunities that are before you.

Often, when the families see the involvement and participation of their father or brother within the lodge or district. it makes them very nervous.

It is the responsibility of those brethren to explain to their loved ones what it is all about; to encourage them to ask to be one. They should be informed, that In order to progress to never allow their fears to get the best of them. Have confidence in yourself and proceed without hesitation.

We are a unique fraternity to each other and our community. By love, caring and sharing, we take the extra step and do whatever is necessary to make ourselves unique. Be the absolute best at what you take pleasure in.

Some members are losing interest in their own work at lodge; a word of encouragement during a failure is worth more than an hour of praise after success. Youth is not a time of life; it is a state of mind; it is not a matter of rosy cheeks, red lips and supple knees; a matter of will, a quality of imagination, vigor of emotions; it is the freshness of the deep spring of life.

"If you want to know where the future of Freemasonry will grow and prosper its simple - in the heart, in your heart, in my heart, and in the hearts of those who follow us." Conrad Hahn.

In Summary:

1. We are a very special group
2. Be HONEST to perspective Brethren about memory work, meetings, expectations
3. Ensure that your loved ones know that this a worthy cause, worthy of your time and effort, that it is important to you
4. Be true to yourself, pursue life in a positive manner, Be the best you can be.

Sincerely and fraternally

Saliem J Khoury

W. Bro. John Melville (Mel) Roy Hodgins Biography of an Unassuming Mason

by W.B. Garry L. West

Mel Hodgins is the best reason for our writing Biographies of our various Brethren. Mel is a quiet man who I see in Lodge from time to time, in Java Guild almost every Tuesday, and while we greet each other in a friendly way, we haven't really gotten to know each other. The meeting we had to gather the information for this Biography offered a rare opportunity to get to know him. Hopefully we can do justice to him in bringing the other Brethren an awareness of who he is.

Mel was born in Midland, Ontario on December 31, 1921. His family moved to Boston Creek, Ontario where he attended Primary School. He then went to High School in Kirkland Lake in 1936. He left school in 1940. Mel's father was a Master Mechanic. He had three sisters.

He married his high school sweetheart when she was eighteen and he nineteen. They were married just shy of 64 years (63 years, 11 months, 14 days) when she tragically passed away from Cancer on October 24, 2005. It was obvious that his wife was a very important part of his life and adjusting to her passing in 2005 was very hard. Cancer has played a big role in Mel's life with losing his son as well to a particularly ravaging Cancer at the too young age of 54.

They have two grandsons and five great grandchildren (2 great grandsons and 3 great granddaughters). Three of the great grandchildren live in Ottawa and two in Sudbury. Mel likes to visit his extended family at least annually.

Mel spent three years in the military after he finished school. He attained the rank of Sergeant in the Provosts Corp and was stationed in various locations, such as Camp Borden, Niagara On The Lake.

He was unable to transfer with his unit when the orders came to go overseas because of the discovery that he had developed Phlebitis. This condition can be dangerous, however, with proper treatment he has carried on these many years.

Mel worked for 34 years at C.I.L. in Copper Cliff as an Electrical and Instrumentation Foreman in the Sulphuric Acid Plant where at the time C.I.L. produced huge amounts of sulphuric acid. Mel had the responsibility of making certain that the plant was able to continue to keep running in regard to the electrical systems and instrumentation so he was on call 24 hours a day. He would have to call his people to locate a person to fix the problem and if he couldn't get someone else, he would have to take it himself. This meant he was taken away from his family and whatever else he was doing in order to fix the current problem. Even with this busy schedule he made time to become Worshipful Master in 1973.

When Inco took over the sulphuric acid production the employees were offered the option of switching to Inco with no loss of benefits, so Mel made the change and worked for 8 months for Inco, then retired.

Mel's hobbies included curling for a short time. His family life, being on call 24 hours a day, 7 days a week and his commitment to Masonry, and owning a home and cottage proved too much. Curling had to go.

He built a house for his family on Loach's Road in Sudbury and the family lived there for 38 years (1949-1987). They also had a cottage on Manitoulin Island where they spent many happy years, although the work to keep the place up got to be too much, not to mention that Mel did not want to be out there on his own, which could prove unwise in case of an emergency.

Mel and his wife were avid travellers. They visited over 80 countries throughout the world. They saw the Taj Mahal, and walked on the Great Wall of China. They climbed a pyramid in Egypt. It is hard to mention a country that they have not visited. They also spent every winter in Florida for twenty years.

Mel has a reputation amongst his fellow Masons as a man who has always done immaculate work in Lodge. Recently at the February meeting of Algonquin Lodge he performed the entire raising in the third degree. His passion for the ritual especially his interpretation of the General Charge is one that leaves you with a haunting desire emulate his perfection. His busy family and work life did not leave Mel with enough time for the other concordant bodies. He is a very dedicated man who takes all of his commitments very seriously.

Mel reports that he is healthy except for still having Gout. It was a great pleasure to get to know Worshipful Brother Mel Hodgins better.

WHAT IS COVERED BY THE LODGE OF PERFECTION?

Lodge of Perfection: The fourth to the fourteenth degrees amplify the legend of the Master Mason degree and the story of the building of King Solomon's Temple. These degrees are designed to impress more forcefully the teachings of the first three degrees. In all Lodges of Perfection the 4th, 5th, 7th 13th and 14th degrees are obligatory, and are conferred in full with the Cast wearing full dress costume: the others, if not in full, are communicated by obligation and explanation.

The apron is purple, bordered with white, and with the "Enochian delta" (hexagram with inscribed Tetragrammaton) in the center. The jewel is a quadrant (compass open to ninety degrees) topped by a crown, and with a nine-pointed star on the obverse, and a five-pointed blazing star (with the Tetragrammaton) on the reverse. The compass is opened on a segment of a circle, inscribed with the numbers 3, 5, 7, 9.

All degrees are depicted by a Cast of members dressed in colourful costumes. Candidates are active participants in the degree and also wear costumes from the era.
